

Insurance Premium Prediction **System System**

Wireframe Documentation

Homepage

We have divided Insurance premium prediction System's Homepage into Two Sections: -

1. First thing anyone will see is a pop-up window on Homepage which will just welcome you

2. The User will encounter with another pop-up window asking for Entering details.

3. Based on User's input, our Insurance premium System will predict expenses to User on Homepage itself. A sample view of Homepage showing results is below:

The screenshot shows a web browser window with a green header bar. The address bar displays the URL `44.202.88.52:8080/predictdata`. The page title is "Insurance premium prediction". Below the title, there is a form with the following fields:

- Sex: Male (dropdown)
- Region: southeast (dropdown)
- BMI: 26.5 (text input)
- AGE: 34 (text input)
- Children: 2 (text input)
- Smoker: Yes (dropdown)

Below the form is a button labeled "Predict your Expenses". The result of the prediction is displayed below the button:

The expenses is 17948.124877351915

On the right side of the page, there is a vertical toolbar with icons for home, back, forward, and settings.
